## Rescheduled: Nano meeting with OPP

Thu 01/06/2011 9:00 AM - 11:00

AM

Attendance is **optional** for Robert Kavlock

Chair: **Doug Wolf/RTP/USEPA/US**

Location: D101 Call in [REDACTED]

This reschedule notice has been applied to the meeting.

 a conflict occurred that necessitated this 30 min change

Required:	Brian Schumacher/LV/USEPA/US@EPA, Christopher Impellitteri/CI/USEPA/US@EPA, David DeMarini/RTP/USEPA/US@EPA, David Thomas/RTP/USEPA/US@EPA, Eliza Blair/DC/USEPA/US@EPA, Jacqueline McQueen/DC/USEPA/US@EPA, Jane Elaine Francis/DC/USEPA/US@EPA, Gene Stroup/RTP/USEPA/US@EPA, Jonathan Garber/NAR/USEPA/US@EPA, Julian Preston/RTP/USEPA/US@EPA, Robert Kavlock/RTP/USEPA/US@EPA
Optional:	

### Description

We would like to meet on Thursday morning (1/6). Bill, Jed, and I will be in RTP. Not sure of the agenda for the nanosilver meeting but the timing would probably be ~9:30 - 11:30. We'll tie in folks outside of RTP by phone.

Again, we would like to discuss:

- ORD's comments on OPP's proposed nanosilver conditional registration decision
- Data requirements

Doug is going to help out with an appt, room, teleconf number, etc. (Doug - please include everyone on the cc list above - thx!).

Thanks so much

Jennifer McLain, Ph.D.,

Deputy Director Antimicrobials Division, OPP/OCSP

In addition:

The reason and interest for this meeting is from Jennifer McLain and their issue of registering nanometals as antimicrobials and how to test them.

They want to start having conversations with key scientists who will be able to help them on an ongoing basis with technical support. Their initial interest is with the nanoAg decision they have made. They are also faced with nanoCu.

All

ORD Staff Comments on HeiQ nano product.docx

Here is the info. for the nano meeting that will include a discussion of the ORD comments on OPP's conditional registration (the compilation of ORD comments is again attached at the end of this message). Please forward to the appropriate staff people in your lab or center who provided the comments in the accompanying document, or ask Doug Wolf to add the person to the invite list.

By way of background, a few of the comments that were initially provided were (slightly) toned down or not included ultimately in the document that was sent to OPP, because they strayed into the policy

arena. The discussion on Thursday will focus only on the science. Also, before we sent over the comments, we discussed with Kevin which "level" in ORD they should come from. After discussion, it was decided that they would come from me, and be identified as "staff comments."

Let me know if there are questions. I hope the individual reviewers can join in the discussion on Thursday morning. OPP has indicated that they just want some clarification on some of the comments.

Jackie McQueen

Hi Doug and Jackie,

Jennifer asked me to provide the summary list of data that HeiQ has provided and the additional data that we are requesting:

OPP AD Testing for HeiQv2.docx

Also, here are responses to some of the key points raised in the ORD staff comments:

ORD Staff Comments on HeiQ nano product.docx

Looking forward to meeting with you on Thursday.

- Jed
